

6th Grade GO Math: Suggested Pacing

Most Go Math lessons take two days to complete. The first day involves learning the lesson concept by going through the examples and lesson videos and then completing the Guided Practice problems. The second day is for the Independent Practice. If your student is following the Google Classroom, the lessons that take three days are noted. Two days are included at the end of each unit for unit review and a unit assessment. Note: This schedule allows plenty of time to take an extra day here and there for review or reteaching as needed and for standardized testing days in the spring.

# of Days	Assignment
Unit 1: Numbers	
2	1.1 - Identifying Integers and Their Opposites
2	1.2 - Comparing and Ordering Integers
3	1.3 - Absolute Value
2	2.1 - Greatest Common
3	2.2 - Least Common Multiple
2	3.1 - Classifying Rational Numbers
2	3.2 - Identifying Opposites & Absolute Value ...
3	3.3 - Comparing and Ordering Rational Numbers
1	<i>Unit 1 Study Guide Review</i>
1	<i>Unit 1 Final Assessment</i>
Unit 2: Number Operations	
2	4.1 - Applying GCF and LCM to Fraction Operations
2	4.2 - Dividing Fractions
2	4.3 - Dividing Mixed Numbers
3	4.4 - Solving Multistep Problems w/Fractions ...
1	<i>Unit 2 Study Guide Review</i>
1	<i>Unit 2 Final Assessment</i>
Unit 3: Ratios and Rates	
2	6.1 - Ratios
3	6.2 - Rates
2	7.1 - Ratios, Rates, Tables, and Graphs
2	7.2 - Applying Ratio and Rate Reasoning
2	7.3 - Converting Within Measurement Systems
3	7.4 - Converting Between Measurement Systems
2	8.1 - Understanding Percent
2	8.2 - Percents, Fractions, and Decimals
3	8.3 - Solving Percent Problems
1	<i>Unit 3 Study Guide Review</i>
1	<i>Unit 3 Final Assessment</i>

# of Days	Assignment
Unit 4: Equivalent Expressions	
2	9.1 - Exponents
2	9.2 - Prime Factorization
3	9.3 - Order of Operations
2	10.1 - Modeling and Writing Expressions
2	10.2 - Evaluating Expressions
3	10.3 - Generating Equivalent Expressions
1	<i>Unit 4 Study Guide Review</i>
1	<i>Unit 4 Final Assessment</i>
Unit 5: Equations/Inequalities	
2	11.1 - Writing Equations to Represent Situations
2	11.2 - Addition and Subtraction Equations
2	11.3 - Multiplication and Division Equations
3	11.4 - Writing Inequalities
2	12.1 - Graphing on the Coordinate Plane
2	12.2 - Independent and Dependent Variables in Tab
2	12.3 - Writing Equations from Tables
3	12.4 - Representing Algebraic Relationships in Table
1	<i>Unit 5 Study Guide Review</i>
1	<i>Unit 5 Final Assessment</i>
Unit 6: Geometry	
2	13.1 - Area of Quadrilaterals
2	13.2 - Area of Triangles
2	13.3 - Solving Area Equations
3	13.4 - Area of Polygons
2	14.1 - Distance in the Coordinate Plane
3	14.2 - Polygons in the Coordinate plane
2	15.1 - Nets and Surface Area
2	15.2 - Volume of Rectangular Prisms
3	15.3 - Solving Volume Equations
1	<i>Unit 6 Study Guide Review</i>
1	<i>Unit 6 Final Assessment</i>
Unit 7: Statistics	
2	16.1 - Measures of Center
2	16.2 - Mean Absolute Deviation
2	16.3 - Box Plots
2	16.4 - Dot Plots and Data Distribution
3	16.5 - Histograms
1	<i>Unit 7 Study Guide Review</i>
1	<i>Unit 7 Final Assessment</i>
