

7th Grade GO Math: Suggested Pacing

Most Go Math lessons take two days to complete. The first day involves learning the lesson concept by going through the examples and lesson videos and then completing the Guided Practice problems. The second day is for the Independent Practice. If your student is following the Google Classroom, the lessons that take three days are noted. Two days are included at the end of each unit for unit review and a unit assessment.

Note: This schedule (143 days) allows plenty of time to take an extra day here and there for review or reteaching as needed and for standardized testing days in the spring.

	Introduction to 7th Grade Math Support	2 days
Unit 1: The Number System		
Module 1	Adding and Subtracting Integers	12 days
Module 2	Multiplying and Dividing Integers	7 days
Module 3	Rational Numbers	15 days
	Study Guide Review and Unit 1 Assessment	2 days
Unit 2: Ratios and Proportional Relationships		
Module 4	Ratios and Proportionality	7 days
Module 5	Proportions and Percents	8 days
	Study Guide Review and Unit 2 Assessment	2 days
Unit 3: Expressions, Equations, and Inequalities		
Module 6	Expressions and Equations	12 days
Module 7	Inequalities	9 days
	Study Guide Review and Unit 3 Assessment	2 days
Unit 4: Geometry		
Module 8	Modeling Geometric Figures	11 days
Module 9	Circumference, Area, and Volume	12 days
	Study Guide Review and Unit 4 Assessment	2 days
Unit 5: Statistics		
Module 10	Random Samples and Populations	8 days
Module 11	Analyzing and Comparing Data	8 days
	Study Guide Review and Unit 5 Assessment	2 days

Unit 6: Probability		
Module 12	Experimental Probability	11 days
Module 13	Theoretical Probability and Simulations	9 days
	Study Guide Review and Unit 6 Assessment	2 days
